

Nimbus Analytics - FY2025 Financial Report

Section 1: Fiscal Year Overview

Nimbus Analytics closed fiscal year 2025 with total revenue of \$42.3 million, representing a 38% year-over-year increase from \$30.6 million in fiscal year 2024. Annual recurring revenue (ARR) reached \$47.1 million by the end of Q4, driven primarily by expansion within the Enterprise tier customer segment.

Section 2: Revenue Breakdown by Segment

The Starter tier contributed \$6.2 million in revenue (14.6% of total), the Professional tier contributed \$18.9 million (44.7%), and the Enterprise tier contributed \$17.2 million (40.7%). Enterprise tier revenue grew 61% year-over-year, the fastest-growing segment.

Section 3: Operating Expenses

Total operating expenses for fiscal year 2025 were \$38.7 million, consisting of \$19.4 million in research and development, \$11.2 million in sales and marketing, and \$8.1 million in general and administrative costs. Research and development spending increased 45% year-over-year as the company invested heavily in the StreamSight v3.2 release.

Section 4: Profitability

Nimbus Analytics reported an operating income of \$3.6 million for fiscal year 2025, marking the company's first profitable fiscal year since founding. Net income after taxes was \$2.4 million, compared to a net loss of \$1.8 million in fiscal year 2024.

Section 5: Customer Metrics

The company ended fiscal year 2025 with 1,840 paying customers, up from 1,290 the prior year. Net revenue retention (NRR) was 118%, and the customer churn rate was 4.2% annually, down from 6.1% in fiscal year 2024. The average contract value (ACV) for Enterprise tier customers was \$94,000.

Section 6: Outlook for Fiscal Year 2026

Management projects fiscal year 2026 revenue in the range of \$56 million to \$60 million, representing 32% to 42% growth. This guidance assumes continued expansion in the Enterprise segment and the planned Q3 launch of StreamSight v4.0, which includes cross-workspace dashboard sharing.
